CHIFUNABULI DISTRICT

CHITEMBO PRIMARY

SCHEMES OF WORK

NAME OF TEACHER: Chola lydia **TS NO:** 20154108 **SUBJECT:** Mathematics and science

GRADE: Grade 1 **YEAR:** 2026 **TERM:** 3

WEEK	TOPIC	SUBTOPIC	SPECIFIC COMPETENCIES	EXPECTED STANDARD	LEARNING ACTIVITIES	TEACHING METHODS	TEACHING AND LEARNING AIDS	REFERENCE
Week 1 (07-09-2026 to 11-09-2026)	1.4 EXPLORING MATERIALS	1.4.1 Materials	1.4.1.1 Explore different materials in the environment	Different materials explored accordingly	* Exploring different types of materials in the environment * Identifying different types of materials: (wood, metal, plastic, stone, sand, mud, water and textiles) * Demonstrating uses of different types of materials (building, making tools, clothing, toys)	Field walk Observation Group discussion	Wood blocks, metal spoons, plastic bottles, stones, sand, mud, water, textiles	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.4 EXPLORING MATERIALS)
Week 2 (14-09-2026 to 18-09-2026)	1.4 EXPLORING MATERIALS	1.4.2 Energy	1.4.2.1 Explore sources of energy using different materials	Sources of energy explored appropriately	* Identifying sources of energy (such as food, sun, wind, water and fossil fuels...) * Relating the energy sources to their uses (food, sun, wind, water, and fossil fuels...)	Interactive brainstorming Observation Guided inquiry	Pictures of sun, wind turbines, water wheels, food items, charcoal/fossil fuels	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.4 EXPLORING MATERIALS)

Week 3 (21-09-2026 to 25-09-2026)	1.4 EXPLORING MATERIALS	1.4.3 Plane and Solid shapes	1.4.3.1 Make shapes using different materials according to criteria	Shapes made using different materials according to criteria	* Exploring different shapes in their environment * Tracing the outline of objects using local resources such as bottle tops (circle), cut-outs (square, rectangle and triangle) * Recognising the shapes using concrete and semi concrete objects (circle, square, rectangle and triangle)	Hands-on tracing Shape sorting game Demonstration	Bottle tops, cardboard cut-outs of shapes, real-world objects (plates, books)	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.4 EXPLORING MATERIALS)
Week 4 (28-09-2026 to 02-10-2026) **(Monthly Assessment)**	1.4 EXPLORING MATERIALS	1.4.3 Plane and Solid shapes	1.4.3.1 Make shapes using different materials according to criteria	Shapes made using different materials according to criteria	* Sorting shapes according to different properties * Creating and manipulating shapes using various materials * Making regular and irregular shapes using different materials * Participating in Monthly Assessment on materials, energy, and shapes	Practical modeling Individual assessment Peer review	Clay, playdough, sticks, paper, assessment worksheets	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.4 EXPLORING MATERIALS)
Week 5 (05-10-2026 to 09-10-2026)	1.4 EXPLORING MATERIALS	1.4.4 Safe Water	1.4.4.1 Use safe and clean water	Safe and clean water used accordingly	* Exploring the water sources in the environment * Identifying clean and safe water * Discussing the importance of water in maintaining bodily functions * Relating safe and clean water to prevent spread of waterborne diseases such as cholera, dysentery, and typhoid * Making water safe to drink	Group discussion Demonstration (boiling/filtering) Storytelling	Samples of clean and dirty water, boiling pot, water filter, posters on waterborne diseases	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.4 EXPLORING MATERIALS)

Week 6 (12-10-2026 to 16-10-2026)	1.4 EXPLORING MATERIALS	1.4.5 Surroundings	1.4.5.1 Exhibit care for the surroundings	Surroundings cared for accordingly	* Exploring the importance of caring for the local environment * Demonstrating environmental care activities (sustainable ways of using the environment) * Practising ways of caring for the local environment such as picking litter, suppressing dust, sweeping, planting trees and grass	Practical outdoor activities Role play Demonstration	Brooms, dustpans, litter bins, tree seedlings, watering cans	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.4 EXPLORING MATERIALS)
Week 7 (19-10-2026 to 23-10-2026) **(19-10-2026 - National Prayers Day)**	1.5 EXPLORING MIXTURES	1.5.1 Mixtures	1.5.1.1 Make mixtures	Mixtures identified correctly	* Exploring different mixtures in the surrounding such as soil, waste, salads, saltwater... * Identifying mixtures in the surrounding * Sorting out mixtures in terms of colour, texture, size...	Hands-on mixing Sorting activities Observation	Soil, water, salt, salad ingredients, bowls, spoons	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.5 EXPLORING MIXTURES)
Week 8 (26-10-2026 to 30-10-2026) **(Monthly Assessment)**	1.5 EXPLORING MIXTURES	1.5.2 Addition and Subtraction of things	1.5.2.1 Use whole numbers in addition of things	Whole numbers used in addition in different situations correctly	* Adding single digit numbers with a sum up to 9 using concrete and semi concrete objects and transit to abstract by using the addition symbol as: i. as putting together, ii. an increase, iii. as comparison * Exploring activities involving zero to show that when zero is added to a number the result is that number * Adding numbers using composition and decomposition of numbers (number bonds) * Adding numbers using frames of 10 * Participating in Monthly Assessment on water, surroundings, and mixtures	Concrete manipulation Guided practice Written assessment	Counters (stones, bottle tops), ten-frames, number bond cards, assessment sheets	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.5 EXPLORING MIXTURES)

Week 9 (02-11-2026 to 06-11-2026)	1.5 EXPLORING MIXTURES	1.5.2 Addition and Subtraction of things	1.5.2.1 Use whole numbers in addition of things	Whole numbers used in addition in different situations correctly	* Adding single digit numbers with a sum up to 18 (using the concept of ten as a unit) * Adding whole numbers with sums up to 100 without carrying * Completing addition of number sentences * Using addition to carry out activities involving money and other real-life quantities	Problem solving Role play (buying and selling) Group work	Play money, price tags, addition charts, counters	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.5 EXPLORING MIXTURES)
Week 10 (09-11-2026 to 13-11-2026)	1.5 EXPLORING MIXTURES	1.5.2 Addition and Subtraction of things	1.5.2.2 Use whole numbers in subtraction things	Subtraction of whole numbers used in different situations correctly	* Subtracting single digit whole numbers in intervals of 1 to 6, 1 to 9 using concrete and semi concrete objects and transit to abstract by using the subtraction symbol as: i. take away, ii. finding the difference, iii. finding missing parts or finding less * Carrying out activities involving zero to show that: i. When zero is subtracted from a number the result is that number, ii. When a number is subtracted from itself the result is zero * Subtracting double digit numbers up to 18 using the unit of 10 * Subtracting whole numbers in 10s up to 100 * Subtracting whole numbers up to 100 * Relating subtraction to addition such as 6 – 2 = 4 or 4 + 2 = 6 * Completing subtraction of number sentences * Using subtraction to carry out activities involving money and other real-life quantities	Concrete modeling Interactive games Guided practice	Counters, subtraction cards, play money, number lines	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.5 EXPLORING MIXTURES)

Week 11 (16-11-2026 to 20-11-2026)	1.5 EXPLORING MIXTURES	1.5.3 Domestic Waste	1.5.3.1 Manage domestic waste	Domestic waste managed accordingly	* Identifying domestic waste in the environment such as plastics, empty water bottles, empty cleaning detergents, insecticide, perfume bottles and agro-chemicals (fertilizers, Pesticides and fungicides) * Demonstrating safe handling and disposal of household waste in designated places * Sorting household waste into categories (poison, non-poison, useful, non useful...) * Recognising the risks associated with household chemical waste	Sorting game Demonstration Safety discussion	Clean empty bottles of detergents/perfumes, plastic bags, waste bins, safety posters	CBC Grade 1 Mathematics and science Syllabus (Ref: 1.5 EXPLORING MIXTURES)
Week 12 (23-11-2026 to 27-11-2026)	REVISIONS	All Term 3 Subtopics	Review and consolidate all competencies from 1.4.1 to 1.5.3	Demonstrate mastery of materials, energy, shapes, safe water, surroundings, mixtures, addition/subtraction, and waste management	* Reviewing properties of materials and energy sources * Practising shape construction and sorting * Revisiting addition and subtraction strategies up to 100 * Re-evaluating safe water practices and domestic waste sorting through interactive quizzes and group games	Interactive quizzes Peer tutoring Station-based review	Flashcards, review worksheets, concrete counters, shape cut-outs	CBC Grade 1 Mathematics and science Syllabus (Ref: All Term 3 Subtopics)

Week 13 (30-11-2026 to 04-12-2026)	END OF TERM TEST / EXAMINATIONS	Summative Assessment	Demonstrate cumulative knowledge and skills acquired in Term 3	Achieve standard performance in Term 3 summative assessment	* Completing written summative test on Mathematics and Science concepts taught in Term 3 * Participating in practical assessment of shape making and waste sorting * Receiving feedback and end-of-term performance evaluation	Individual examination Practical performance assessment	Printed exam papers, pencils, practical assessment materials (shapes, waste items)	CBC Grade 1 Mathematics and science Syllabus (Ref: Summative Assessment)
